

Section 1: 10-Q (10-Q)

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2018

TRANSITION REPORT PURSUANT TO 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 1-33377

Stewardship Financial Corporation

(Exact name of registrant as specified in its charter)

New Jersey

22-3351447

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer Identification No.)

630 Godwin Avenue, Midland Park, NJ

07432

(Address of principal executive offices)

(Zip Code)

(201) 444-7100

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company []

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. []

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of shares outstanding, net of treasury stock, of the Registrant's Common Stock, no par value, as of May 10, 2018 was 8,674,890.

Stewardship Financial Corporation and Subsidiary
Notes to Consolidated Financial Statements
March 31, 2018
(Unaudited)

Note 1. Summary of Significant Accounting Policies

Certain information and note disclosures normally included in the unaudited consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") have been omitted pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Stewardship Financial Corporation Annual Report on Form 10-K for the fiscal year ended December 31, 2017, filed with the SEC on March 23, 2018 (the "2017 Annual Report").

The interim unaudited consolidated financial statements included herein have been prepared in accordance with instructions for Form 10-Q and the rules and regulations of the SEC and, therefore, do not include information or footnotes necessary for a complete presentation of consolidated financial condition, results of operations, and cash flows in conformity with GAAP. However, all adjustments, consisting only of normal recurring adjustments, which in the opinion of management are necessary for a fair presentation of the interim consolidated financial statements, have been included. The results of operations for the three months ended March 31, 2018 are not necessarily indicative of the results which may be expected for the entire year. Certain prior period amounts have been reclassified to conform with the current period presentation.

Principles of consolidation

The consolidated financial statements include the accounts of Stewardship Financial Corporation and its wholly-owned subsidiary, Atlantic Stewardship Bank (the "Bank"), together referred to as "the Corporation". The Bank includes its wholly-owned subsidiaries, Stewardship Investment Corporation, Stewardship Realty LLC, Atlantic Stewardship Insurance Company, LLC and several other subsidiaries formed to hold title to properties acquired through foreclosure or deed in lieu of foreclosure. The Bank's subsidiaries have an insignificant impact on the Bank's daily operations. All intercompany accounts and transactions have been eliminated in the consolidated financial statements.

The consolidated financial statements of the Corporation have been prepared in conformity with GAAP. In preparing the consolidated financial statements, management is required to make estimates and assumptions, based on available information, that affect the amounts reported in the consolidated financial statements and disclosures provided. Actual results could differ significantly from those estimates.

Material estimates

Material estimates that are particularly susceptible to significant changes relate to the determination of the allowance for loan losses and deferred income taxes. Management believes the Corporation's policies with respect to the methodology for the determination of the allowance for loan losses and the evaluation of deferred income taxes involves a higher degree of complexity and requires management to make difficult and subjective judgments, which often require assumptions or estimates about highly uncertain matters. Changes in these judgments, assumptions or estimates could materially impact results of operations. These critical policies and their application are periodically reviewed with the Audit Committee and the Board of Directors.

Adoption of New Accounting Standards

In May 2014, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers (Topic 606)". The objective of this amendment is to clarify the principles for recognizing revenue and to develop a common revenue standard for U.S. GAAP and International Financial Reporting Standards. This update affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are in the scope of other standards. The ASU is effective for public business entities for financial statements issued for fiscal years beginning after December 15, 2017, and early adoption is permitted. Subsequently, the FASB issued the following standards related to ASU 2014-09: ASU 2016-08, "Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations;" ASU 2016-10, "Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing;" ASU 2016-11, "Revenue Recognition (Topic 605) and Derivatives and

Hedging (Topic 815): Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 EITF Meeting;” and ASU 2016-12, “Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients.” These amendments are intended to improve and clarify the implementation guidance of ASU 2014-09 and have the same effective date as the original standard. The Corporation’s implementation efforts include the identification of revenue within the scope of the guidance, as well as the evaluation of revenue contracts and the respective performance obligations within those contracts. We have evaluated the nature of our contracts with customers and determined that further disaggregation of revenue from contracts with customer into more granular categories beyond what is presented in the the Condensed Consolidated Statement of Income was not necessary. We generally satisfy our performance obligations on contracts with customers as services are rendered, and the transaction prices are typically fixed and charged either on a periodic basis or based on activity. Because performance obligations are satisfied as services are rendered and the transaction prices are fixed, there is little judgment involved in applying this ASU that significantly affect the determination of the amount and timing of the revenue from contracts with customers. The Corporation has completed its evaluation and adopted this ASU effective January 1, 2018 using the modified retrospective approach. Adoption of ASU 2014-09 did not have a material impact on our consolidated financial statements and related disclosures as our primary sources of revenues are derived from interest and dividends earned on loans, securities and other financial instruments that are not within the scope of the new standard. Our revenue recognition pattern for revenue streams within the scope of the new standard, including but not limited to service charges on deposit accounts and debit card interchange, did not change significantly from prior practice. The modified retrospective method requires application of ASU 2014-09 to uncompleted contracts at the date of adoption, however, periods prior to the date of adoption have not been retrospectively revised as the impact impact of the new standard on uncompleted contracts as the date of adoption was not material as such a cumulative effective adjustment to opening retained earnings was not deemed necessary.

In January 2016, the FASB issued ASU No. 2016-01, "Financial Instruments - Overall: Recognition and Measurement of Financial Assets and Liabilities." This ASU addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. This amendment supersedes the guidance to classify equity securities with readily determinable fair values into different categories, requires equity securities to be measured at fair value with changes in the fair value recognized through net income, and simplifies the impairment assessment of equity investments without readily determinable fair values. The amendment requires public business entities that are required to disclose the fair value of financial instruments measured at amortized cost on the balance sheet to measure that fair value using the exit price notion. The amendment requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option. The amendment requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or in the accompanying notes to the financial statements. The amendment reduces diversity in current practice by clarifying that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available for sale securities in combination with the entity’s other deferred tax assets. This amendment is effective for fiscal years, including interim periods, beginning after December 15, 2017. Entities should apply the amendment by means of a cumulative-effect adjustment as of the beginning of the fiscal year of adoption, with the exception of the amendment related to equity securities without readily determinable fair values, which should be applied prospectively to equity investments that exist as of the date of adoption. The Corporation’s adoption of the guidance resulted in the reclassification from accumulated other comprehensive income (loss) to retained earnings of \$163,000, reflected in the Consolidated Statements of Changes in Shareholders' Equity. In addition, the fair value of loans has been estimated using the exit price notion as described in Note 4.

In February 2016, the FASB issued ASU 2016-02, “Leases (Subtopic 842).” This ASU requires all lessees to recognize a lease liability and a right-of-use asset, measured at the present value of the future minimum lease payments, at the lease commencement date. Lessor accounting remains largely unchanged under the new guidance. The amendments in ASU 2016-02 are effective for fiscal years, including interim periods, beginning after December 15, 2018. Early adoption of ASU 2016-02 is permitted. The Corporation is currently assessing the impact that the adoption of the guidance will have on the Corporation's consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, “Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments.” The main objective of this ASU is to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments by a reporting entity at each reporting date. The amendments in this ASU require financial assets measured at amortized cost to be presented at

the net amount expected to be collected. The allowance for credit losses would represent a valuation account that would be deducted from the amortized cost basis of the financial asset(s) to present the net carrying value at the amount expected to be collected on the financial asset. The income statement would reflect the measurement of credit losses for newly recognized financial assets, as well as the expected increases or decreases of expected credit losses that have taken place during the period. The measurement of expected credit losses would be based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. An entity will be required to use judgment in determining the relevant information and estimation methods that are appropriate in its circumstances. The amendments in ASU 2016-13 are effective for fiscal years, including interim periods, beginning after December 15, 2019. Early adoption of this ASU is permitted for fiscal years beginning after December 15, 2018. The Corporation is currently evaluating the potential impact of ASU 2016-13 on the Corporation's consolidated financial statements. The Corporation has formed a working group, under the direction of the Chief Financial Officer, which is currently developing an implementation plan to include assessment of processes, portfolio segmentation, model development, system requirements and the identification of data and resource needs, among other things. Also, the Corporation is currently evaluating third-party vendor solutions to assist in the application of the ASU 2016-13. The adoption of the ASU 2016-13 may result in an increase in the allowance for loan losses due to changing from an "incurred loss" model, which encompasses allowances for current known and inherent losses within the portfolio, to an "expected loss" model, which encompasses allowances for losses expected to be incurred over the life of the portfolio. Furthermore, ASU 2016-13 will necessitate establishing an allowance for expected credit losses on debt securities. The Corporation is currently unable to reasonably estimate the impact of adopting ASU 2016-13, and it is expected that the impact of adoption will be significantly influenced by the composition, characteristics and quality of our loan and securities portfolios as well as the prevailing economic conditions and forecasts as of the adoption date.

In August 2017, the FASB issued ASU No. 2017-12, "Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities", with the objective of improving the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements. The amendments in ASU 2017-12 expand and refine hedge accounting for both nonfinancial and financial risk components and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. This ASU will be effective for interim and annual periods beginning after December 15, 2018. Early adoption of ASU 2017-12 is permitted. The Corporation is currently evaluating the potential impact that the adoption of the guidance will have on the Corporation's consolidated financial statements.

Note 2. Securities – Available-for-Sale and Held to Maturity

The amortized cost, gross unrealized gains and losses and fair value of the available-for-sale securities were as follows:

Total debt securities	\$ 110,804	\$ 224	\$ 1,769	\$ 109,259

(a) Collateralized by student loans.

There were cash proceeds of \$1,006,500 realized from sales and calls of securities available-for-sale for the three months ended March 31, 2018. There were no cash proceeds realized from sales and calls of securities available-for-sale for the three months ended March 31, 2017. There were gross gains totaling \$6,500 and no gross losses realized on sales or calls during the three months ended March 31, 2018. There were no gross gains and no gross losses realized on sales or calls during the three months ended March 31, 2017.

The following is a summary of the amortized cost, gross unrealized gains and losses and fair value of the held to maturity securities:

	March 31, 2018			
	Amortized Cost	Gross Unrealized		Fair Value
		Gains	Losses	
(In thousands)				
U.S. Treasury	\$ 999	\$ —	\$ 17	\$ 982
U.S. government-sponsored agencies	28,568	—	1,166	27,402
Obligations of state and political subdivisions	3,390	19	34	3,375
Mortgage-backed securities	18,937	42	439	18,540
	<u>\$ 51,894</u>	<u>\$ 61</u>	<u>\$ 1,656</u>	<u>\$ 50,299</u>

	December 31, 2017			
	Amortized Cost	Gross Unrealized		Fair Value
		Gains	Losses	
(In thousands)				
U.S. Treasury	\$ 999	\$ —	\$ 11	\$ 988
U.S. government-sponsored agencies	27,075	4	760	26,319
Obligations of state and political subdivisions	4,057	21	23	4,055
Mortgage-backed securities	20,311	76	198	20,189
	<u>\$ 52,442</u>	<u>\$ 101</u>	<u>\$ 992</u>	<u>\$ 51,551</u>

Cash proceeds realized from calls of securities held to maturity for the three months ended March 31, 2018 were \$280,000. Cash proceeds realized from calls of securities held to maturity for the three months ended March 31, 2017 were \$340,000. There were no gross gains and no gross losses realized on calls during the three months ended March 31, 2018 and March 31, 2017, respectively.

Mortgage-backed securities are a type of asset-backed security secured by a mortgage or collection of mortgages, purchased by government agencies such as the Government National Mortgage Association and government sponsored agencies such as the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation, which then issue securities that represent claims on the principal and interest payments made by borrowers on the loans in the pool.

The following table presents the amortized cost and fair value of the debt securities portfolio by contractual maturity. As issuers may have the right to call or prepay obligations with or without call or prepayment premiums, the actual maturities may differ from contractual maturities. Securities not due at a single maturity date, such as mortgage-backed securities and asset-backed securities, are shown separately.

	March 31, 2018	
	Amortized Cost	Fair Value
(In thousands)		
Available-for-sale

Other-Than-Temporary Impairment

At March 31, 2018, there were available-for-sale investments comprising twelve U.S. government-sponsored agency securities, four obligations of state and political subdivision securities, forty mortgage-backed securities, and nine corporate debt securities in a continuous loss position for twelve months or longer. At March 31, 2018, there were held to maturity investments comprising fifteen U.S. government-sponsored agency securities, one obligation of state and political subdivision security, and fourteen mortgage-backed securities in a continuous loss position for twelve months or longer. Management has assessed the securities that were in an unrealized loss position at March 31, 2018 and December 31, 2017 and has determined that any decline in fair value below amortized cost primarily relates to changes in interest rates and market spreads and was temporary.

In making this determination management considered the following factors: the period of time the securities were in an unrealized loss position; the percentage decline in comparison to the securities' amortized cost; any adverse conditions specifically related to the security, an industry or a geographic area; the rating or changes to the rating by a credit rating agency; the financial condition of the issuer and guarantor and any recoveries or additional declines in fair value subsequent to the balance sheet date.

The Corporation does not intend to sell securities in an unrealized loss position and it is not more likely than not that we will be required to sell these securities before the recovery of their amortized cost bases, which may be at maturity.

Note 3. Loans and Allowance for Loan Losses

At March 31, 2018 and December 31, 2017, respectively, the loan portfolio consisted of the following:

	March 31, 2018	December 31, 2017
(In thousands)		
Commercial:		
Secured by real estate	\$ 28,447	\$ 31,684
Other	59,664	57,372
Commercial real estate	488,641	493,542
Commercial construction	4,632	2,152
Residential real estate	86,050	85,760
Consumer:		
Secured by real estate	32,958	32,207
Other	353	563
Government Guaranteed Loans - guaranteed portion	7,367	8,334
Other	57	106
Total gross loans	708,169	711,720
Less: Deferred loan costs, net	448	397
Allowance for loan losses	8,445	8,762
	8,893	9,159
Loans, net	\$ 699,276	\$ 702,561

The Corporation has purchased the guaranteed portion of several Government Guaranteed loans. Due to the guarantee of the principal amount of these loans, no allowance for loan losses is established for these loans.

Activity in the allowance for loan losses is summarized as follows:

	For the three months ended March 31, 2018				
	Balance, beginning of period	Provision charged to operations	Loans charged off	Recoveries of loans charged off	Balance, end of period
	(In thousands)				
Commercial	\$ 3,058	\$ (189)	\$ (29)	\$ 25	\$ 2,865

Troubled Debt Restructurings

In order to determine whether a borrower is experiencing financial difficulty necessitating a restructuring, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed in accordance with the Corporation's internal underwriting policy. A loan is considered to be in payment default once it is contractually 90 days past due.

At March 31, 2018 and December 31, 2017, the Corporation had \$6.5 million and \$6.6 million, respectively, of loans whose terms have been modified in troubled debt restructurings. Of these loans, \$5.9 million had demonstrated a reasonable period of performance in accordance with their new terms at March 31, 2018 and December 31, 2017. The remaining troubled debt restructurings are reported as nonaccrual loans. Specific reserves of \$577,000 and \$582,000 have been recorded for the troubled debt restructurings at March 31, 2018 and December 31, 2017, respectively, and are included in the table above. As of March 31, 2018 and December 31, 2017, there were no additional funds committed to these borrowers.

There were no new loans classified as a troubled debt restructuring during the three months ended March 31, 2018 or March 31, 2017.

Credit Quality Indicators

The Corporation categorizes certain loans into risk categories based on relevant information about the ability of the borrowers to service their debt, such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Corporation analyzes loans individually by classifying the loans as to credit risk. This analysis includes non-homogeneous loans, such as commercial, commercial real estate and commercial construction loans. This analysis is performed at the time the loan is originated and annually thereafter. The Corporation uses the following definitions for risk ratings.

Special Mention – A Special Mention asset has potential weaknesses that deserve management’s close attention, which, if left uncorrected, may result in deterioration of the repayment prospects for the asset or the Bank’s credit position at some future date. Special Mention assets are not adversely classified and do not expose the Bank to sufficient risk to warrant adverse classification.

Substandard – Substandard loans are inadequately protected by the current net worth and paying capacity of the borrower or by the collateral pledged, if any. Loans so classified must have a well-defined weakness or weaknesses that jeopardize the repayment and liquidation of the debt. These loans are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected.

Doubtful – A Doubtful loan has all of the weaknesses inherent in those classified as Substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently known facts, conditions, and values, highly questionable or improbable. The likelihood of loss is extremely high, but because of certain important and reasonably specific factors, an estimated loss is deferred until a more exact status can be determined.

Loss – A loan classified Loss is considered uncollectible and of such little value that its continuance as an asset is not warranted. This classification does not necessarily mean that an asset has absolutely no recovery or salvage value, but rather it is not practical or desirable to defer writing off a basically worthless asset even though partial recovery may be effected in the future.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans. As of March 31, 2018 and December 31, 2017, and based on the most recent analysis performed at those times, the risk category of loans by class is as follows:

	March 31, 2018					Total
	Pass	Special Mention	Substandard	Doubtful	Loss	
	(In thousands)					
Commercial:						
Secured by real estate	\$ 26,042	\$ 1,952	\$ 453	\$ —	\$ —	\$ 28,447

The Corporation considers the historical and projected performance of the loan portfolio and its impact on the allowance for loans losses. For the residential real estate and consumer loan segments, the Corporation evaluates credit quality primarily based on payment activity and historical loss data. The following table presents the recorded investment in residential real estate and consumer loans based on payment activity as of March 31, 2018 and December 31, 2017.

	March 31, 2018

Total	\$ 118,188	\$ 342	\$ 118,530

Note 4. Fair Value of Financial Instruments

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Assets and Liabilities Measured on a Recurring Basis

Assets and liabilities measured at fair value on a recurring basis are summarized below:

	Carrying Value	Fair Value Measurements Using:		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
At March 31, 2018				
(In thousands)

There were no transfers of assets between Level 1 and Level 2 during the three months ended March 31, 2018 or during the year ended December 31, 2017. There were no changes to the valuation techniques for fair value measurements as of March 31, 2018 and December 31, 2017.

The fair values of investment securities are determined by quoted market prices, if available (Level 1). If quoted prices are not available, fair values of investment securities are determined by matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs). The Corporation performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Corporation compares the prices received from the pricing service to a secondary pricing source. The Corporation's internal price verification procedures have not historically resulted in adjustment in the prices obtained from the pricing service.

The interest rate swaps are reported at fair values obtained from brokers who utilize internal models with observable market data inputs to estimate the values of these instruments (Level 2 inputs).

Assets and Liabilities Measured on a Non-Recurring Basis

There were no assets or liabilities measured at fair value on a non-recurring basis as of March 31, 2018.

Assets and liabilities measured at fair value on a non-recurring basis as of December 31, 2017 are summarized below:

Carrying Value	Fair Value Measurements Using:		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	At December 31, 2017		
(In thousands)			
Assets:			
Impaired loans			
Commercial:			
Secured by real estate	\$ 109	\$ —	\$ 109
Commercial real estate	192	—	192
Residential real estate	296	—	296
	<u>\$ 597</u>	<u>\$ —</u>	<u>\$ 597</u>

There were no collateral-dependent impaired loans measured for impairment using fair value of the collateral as of and for the three months ended March 31, 2018.

Collateral-dependent impaired loans measured for impairment using the fair value of the collateral had a recorded investment value of \$624,000, resulting in an increase of the allocation for loan losses of \$27,000 for the year ended December 31, 2017.

There was no OREO at March 31, 2018 or December 31, 2017.

The Corporation does not record loans at fair value on a recurring basis. However, from time to time, the Corporation records non-recurring fair value adjustments to collateral dependent loans to reflect impairment. The Corporation measures impairment of collateralized loans based on the estimated fair value of the collateral less estimated costs to sell the collateral, incorporating assumptions that experienced parties might use in estimating the value of such collateral (Level 3 inputs). At the time a loan is considered impaired, it is valued at the lower of cost or fair value. Generally, impaired loans carried at fair value have been partially charged-off or receive specific allocations of the allowance for loan losses. For collateral dependent loans, fair value is commonly based on real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. In the appraisal process, the independent appraisers routinely adjust for differences between the comparable sales and income data available. Such adjustments typically result in a Level 3 classification of the inputs for determining fair value. Methods for valuing non-real estate collateral include using an appraisal, the net book value recorded for the collateral on the borrower's financial statements, or aging reports. Collateral is then adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the borrower and borrower's business, resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Appraisals are generally obtained to support the fair value of collateral. Appraisals for collateral-dependent impaired loans are performed by licensed appraisers whose qualifications and licenses have been reviewed and verified by the Corporation. The Corporation utilizes a third party to order appraisals and, once received, reviews the assumptions and approaches utilized in the appraisal as well as the resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics.

Real estate appraisals typically incorporate measures such as recent sales prices for comparable properties. Appraisers may make adjustments to the sales price of the comparable properties as deemed appropriate based on the age, condition or general characteristics of the subject property. Management generally applies a 12% discount to real estate appraised values to cover disposition / selling costs and to reflect the potential price reductions in the market necessary to complete an expedient sale transaction and to factor in the impact of the perception that a transaction being completed by a bank may result in further price reduction pressure.

For the Level 3 assets measured at fair value on a non-recurring basis as December 31, 2017, the significant unobservable inputs used in the fair value measurements were as follows:

December 31, 2017				
Assets	Fair Value	Valuation Technique	Unobservable Inputs	Range
(Dollars in thousands)				
Impaired loans	\$ 597	Comparable real estate sales and / or the income approach.	Adjustments for differences between comparable sales and income data available.	5%
			Estimated selling costs.	7%

Fair value estimates for the Corporation's financial instruments are summarized below:

	Carrying Value	Fair Value Measurements Using:

Interest rate swap	29	—	29	—

The following methods and assumptions were used to estimate the fair value of financial instruments recorded at fair value on a recurring or non-recurring basis not previously described:

Loans, net – Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type such as residential and commercial mortgages, commercial and other installment loans. Fair value for loans a March 31, 2018 is based on an exit price model as required by ASU 2106-01 taxing into account inputs such as probability of default and loss given default assumptions. As of December 31, 2017, the fair value of loans is estimated by discounting cash flows using estimated market discount rates that reflect the credit and interest rate risk inherent in the loans resulting in a Level 3 classification. Fair values estimated in this manner do not fully incorporate an exit-price approach to fair value, but instead are based on a comparison to current market rates for comparable loans.

Limitations

The preceding fair value estimates were made at March 31, 2018 and December 31, 2017 based on pertinent market data and relevant information concerning the financial instruments. These estimates do not include any premiums or discounts that could result from an offer to sell at one time the Corporation's entire holdings of a particular financial instrument or category thereof. Since no market exists for a substantial portion of the Corporation's financial instruments, fair value estimates were necessarily based on judgments with respect to future expected loss experience, current economic conditions, risk assessments of various financial instruments, and other factors. Given the subjective nature of these estimates, the uncertainties surrounding them and the matters of significant judgment that must be applied, these fair value estimates cannot be calculated with precision. Modifications in such assumptions could meaningfully alter these estimates.

Since these fair value estimates were made solely for on- and off-balance sheet financial instruments at March 31, 2018 and December 31, 2017, no attempt was made to estimate the value of anticipated future business. Furthermore, certain tax implications related to the realization of unrealized gains and losses could have a substantial impact on these fair value estimates and have not been incorporated into the estimates.

Note 5. Earnings Per Share

The following reconciles the income available to common shareholders (numerator) and the weighted average common stock outstanding (denominator) for both basic and diluted earnings per share.

	Three Months Ended March 31,	
	2018	2017
	(Dollars in thousands)	
Net income	\$ 1,808	\$ 991
Weighted average common shares outstanding - basic	8,658,506	6,124,926
Effect of dilutive securities - stock options	N/A	N/A
Weighted average common shares outstanding - diluted	8,658,506	6,124,926
Basic earnings per common share	\$ 0.21	\$ 0.16
Diluted earnings per common share	\$ 0.21	\$ 0.16

There were no stock options to purchase shares of common stock for the three months ended March 31, 2018 and 2017.

Note 6. Accumulated Other Comprehensive Income

The components of comprehensive income, both gross and net of tax, are presented for the periods below:

	Three Months Ended March 31,					
	2018			2017		
	Gross	Tax Effect	Net	Gross	Tax Effect	Net
	(In thousands)					
Net income	\$ 2,455	\$ (647)	\$ 1,808	\$ 1,565	\$ (574)	\$ 991

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain “forward-looking statements” with respect to Stewardship Financial Corporation (the “Corporation”) within the meaning of the Private Securities Litigation Reform Act of 1995, which forward-looking statements may be identified by the use of such words as “expect,” “believe,” “anticipate,” “should,” “plan,” “estimate,” and “potential.” Examples of forward-looking statements include, but are not limited to, estimates with respect to the financial condition, results of operations and business of the Corporation that are subject to various factors which could cause actual results to differ materially from these estimates. These factors include: changes in general, economic and market conditions, legislative and regulatory conditions, or the development of an interest rate environment that adversely affects the Corporation’s interest rate spread or other income anticipated from operations and investments. As used in this Form 10-Q, “we”, “us” and “our” refer to the Corporation and its consolidated subsidiary, Atlantic Stewardship Bank (the “Bank”), unless the context indicates otherwise.

Critical Accounting Policies and Estimates

“Management’s Discussion and Analysis of Financial Condition and Results of Operations,” as well as disclosures found elsewhere in this Quarterly Report on Form 10-Q, are based upon the Corporation’s consolidated financial statements, which have been prepared in conformity with U.S. generally accepted accounting principles (“GAAP”). The preparation of these financial statements requires the Corporation to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. Note 1 to the Corporation’s Audited Consolidated Financial Statements for the year ended December 31, 2017, included in the Corporation’s 2017 Annual Report on Form 10-K, contains a summary of the Corporation’s significant accounting policies. Management believes the Corporation’s policy with respect to the methodology for the determination of the allowance for loan losses involves a higher degree of complexity and requires management to make difficult and subjective judgments, which often require assumptions or estimates about highly uncertain matters. Changes in these judgments, assumptions or estimates could materially impact results of operations. This critical accounting policy and its application are periodically reviewed with the Audit Committee and the Board of Directors.

Allowance for Loan Losses. The allowance for loan losses is based upon management’s evaluation of the adequacy of the allowance, including an assessment of known and inherent risks in the loan portfolio, giving consideration to the size and composition of the loan portfolio, actual loan loss experience, level of delinquencies, detailed analysis of individual loans for which full collectability may not be assured, the existence and estimated net realizable value of any underlying collateral and guarantees securing the loans, and current economic and market conditions. Although management uses the best information available, the level of the allowance for loan losses remains an estimate, which is subject to significant judgment and short-term change. Various regulatory agencies, as an integral part of their

examination process, periodically review the Corporation's allowance for loan losses. Our regulators may require us to make additional provisions for loan losses based upon information available to the regulators at the time of the examination. Furthermore, the majority of the Corporation's loans are secured by real estate in the State of New Jersey. Accordingly, the collectability of a substantial portion of the carrying value of the Corporation's loan portfolio is susceptible to changes in real estate market conditions in northern New Jersey and may be adversely affected should real estate values decline or the northern New Jersey area experience adverse economic changes. Future adjustments to the allowance for loan losses may be necessary due to economic, operating, regulatory and other conditions beyond the Corporation's control.

Financial Condition

Total assets decreased \$6.3 million to \$922.5 million at March 31, 2018 from \$928.8 million at December 31, 2017. Total securities (including available-for-sale, held to maturity, other equity investments and FHLBNY stock) decreased \$4.1 million. Net loans decreased \$3.3 million to \$699.3 million at March 31, 2018 compared to \$702.6 million at December 31, 2017. During the quarter, new loan originations were generally offset by several larger loan payoffs and normal principal amortization.

Deposits totaled \$772.2 million at March 31, 2018, an increase of \$8.1 million from \$764.1 million at December 31, 2017. The growth in deposits primarily consisted of a \$5.7 million increase in noninterest-bearing accounts and a \$2.4 million increase in interest-bearing accounts. Other borrowings decreased to \$48.8 million at March 31, 2018 compared to \$63.8 million at December 31, 2017 reflecting repayment of maturing borrowings.

Results of Operations

General

The Corporation reported net income of \$1.8 million, or \$0.21 diluted earnings per common share for the three months ended March 31, 2018 compared to net income of \$1.0 million, or \$0.16 diluted earnings per share, for the three months ended March 31, 2017. Furthermore, earnings per share for the three months ended March 31, 2017 were impacted by the 2,509,090 shares issued in the Corporation's public offering of common stock completed in April 2017.

Net Interest Income

Net interest income, on a tax equivalent basis, for the three months ended March 31, 2018 was \$6.8 million compared to \$6.2 million recorded in the prior year period. The net interest rate spread, on a tax equivalent basis, and net yield on interest-earning assets, on a tax equivalent basis, for the three months ended March 31, 2018 were 2.90% and 3.15%, respectively, compared to 3.04% and 3.23% for the three months ended March 31, 2017.

The following tables reflect the components of the Corporation's net interest income for the three months ended March 31, 2018 and 2017 including: (1) average assets, liabilities and shareholders' equity based on average daily balances, (2) interest income earned on interest-earning assets and interest expense paid on interest-bearing liabilities, (3) average yields earned on interest-earning assets and average rates paid on interest-bearing liabilities and (4) net yield on interest-earning assets. Nontaxable income from investment securities and loans is presented on a tax-equivalent basis assuming a statutory tax rate of 21% for the periods presented. This was accomplished by adjusting non-taxable income upward to make it equivalent to the level of taxable income required to earn the same amount after taxes.

Analysis of Net Interest Income (Unaudited)

Three Months Ended March 31,

	2018			2017		
	Average Balance	Interest Income/ Expense	Average Rates Earned/ Paid	Average Balance	Interest Income/ Expense	Average Rates Earned/ Paid
(Dollars in thousands)						
Assets						
Interest-earning assets:						
Loans (1) (2)	\$ 705,520	\$ 7,523	4.32%	\$ 627,360	\$ 6,595	4.26%
Taxable investment securities (1)	154,494	907	2.38	139,697	734	2.13
Tax-exempt investment securities (1) (2)	6,917	57	3.34	9,680	108	4.52
Other interest-earning assets	13,941	67	1.95	4,716	31	2.58
Total interest-earning assets	880,872	8,554	3.94	781,453	7,468	3.88
Non-interest-earning assets:						
Allowance for loan losses	(8,784)			(7,980)		
Other assets	47,598			44,548		
Total assets	\$ 919,686			\$ 818,021		
Liabilities and Stockholders' Equity						
Interest-bearing liabilities:						
Interest-bearing demand deposits	\$ 293,136	\$ 327	0.45%	\$ 240,686	\$ 127	0.21%
Savings deposits	85,810	22	0.10	92,974	23	0.10
Time deposits	204,538	716	1.42	173,952	483	1.13
FHLB-NY borrowing	60,408	259	1.74	68,607	243	1.44
Subordinated debentures and subordinated notes	23,325	392	6.82	23,260	368	6.42
Total interest-bearing liabilities	667,217	1,716	1.04	599,479	1,244	0.84
Non-interest-bearing liabilities:						
Demand deposits	174,385			163,478		
Other liabilities	4,158			2,940		
Stockholders' equity	73,926			52,124		
Total liabilities and stockholders' equity	\$ 919,686			\$ 818,021		
Net interest income (taxable equivalent basis)		6,838			6,224	
Tax equivalent adjustment		(15)			(44)	
Net interest income		\$ 6,823			\$ 6,180	
Net interest spread (taxable equivalent basis)			2.90%			3.04%
Net yield on interest-earning assets (taxable equivalent basis) (3)			3.15%			3.23%

(1) For purposes of these calculations, nonaccruing loans are included in the average balance. Loans and total interest-earning assets are net of unearned income. Securities are included at amortized cost.

(2) The tax equivalent adjustments are based on a marginal tax rate of 21%.

(3) Net interest income (taxable equivalent basis) divided by average interest-earning assets.

For the three months ended March 31, 2018, total interest income, on a tax equivalent basis, was \$8.6 million compared to \$7.5 million for the same prior year period. The increase reflects an increase in the average balance of interest-earning assets coupled with an increase in the overall yield on interest-earning assets. Average interest-earning assets increased \$99.4 million for the three months ended March 31, 2018, compared to the prior year period. The change in average interest-earning assets reflects an increase from the comparable prior year period in average loans and, to a lesser extent, an increase in investment securities. Average loans increased \$78.2 million for the three months ended March 31, 2018 when compared to the prior year average. Average investment securities increased \$12.0 million for the three months ended March 31, 2018 when compared to the prior year average. The average rate earned on interest-earning assets was 3.94% for the three months ended March 31, 2018 compared to an average rate of 3.88% for the three months ended March 31, 2017.

Interest expense increased \$472,000 for the three months ended March 31, 2018, compared to the same period for 2017. The average balance of interest-bearing deposits increased \$75.9 million for the three months ended March 31, 2018 from the comparable 2017 period. Partially offsetting, for the three months ended March 31, 2018, FHLB-NY borrowings decreased \$8.2 million in average interest-bearing liabilities. The cost for total interest-bearing liabilities was 1.04% for the three months ended March 31, 2018, compared to 0.84% for the three months ended March 31, 2017.

Provision for Loan Losses

The Corporation maintains an allowance for loan losses at a level considered by management to be adequate to cover the probable losses to be incurred associated with its loan portfolio. The Corporation's policy with respect to the methodology for the determination of the allowance for loan losses involves judgments. The adequacy of the allowance for loan losses is based upon management's evaluation of the known and inherent risks in the portfolio, consideration of the size and composition of the loan portfolio, actual loan loss experience, the level of delinquencies, detailed analysis of individual loans for which full collectability may not be assured, the existence and estimated net realizable value of any underlying collateral and guarantees securing the loans, and current economic and market conditions.

For the three months ended March 31, 2018, the Corporation recorded a negative \$325,000 loan loss provision compared to a \$300,000 loan loss provision for the three months ended March 31, 2017. The loan loss provision in the current year period reflects the continued growth in the loan portfolio. In addition, due to a stabilization of the economic conditions and overall real estate climate in the primary business markets in which the Corporation operates, the benefits from these qualitative factors improving in prior periods, have been reduced, thus offsetting the need to record a provision due to loan growth.

Nonperforming loans were \$1.1 million at March 31, 2018, or 0.16% of total gross loans, a slight decrease from \$1.2 million of nonperforming loans, or 0.17% of total gross loans, at December 31, 2017.

The allowance for loan losses was \$8.4 million, or 1.19% of total gross loans, as of March 31, 2018 compared to \$8.8 million, or 1.23% of total gross loans, as of December 31, 2017. The allowance for loan losses related to impaired loans decreased slightly from \$609,000 at December 31, 2017 to \$577,000 at March 31, 2018. During the three months ended March 31, 2018, the Corporation charged off \$30,000 of loans and recovered \$48,000 of previously charged-off loans compared to a chargeoff of \$1,000 of loan balances and recovery of \$42,000 in previously charged off loans during the same period in 2017.

The Corporation monitors its loan portfolio and intends to continue to provide for loan loss reserves based on its ongoing periodic review of the loan portfolio, charge-off activity and general market conditions. There can be no assurances that the current level of provision for loan losses will continue in the future.

See "Asset Quality" section below for a summary of the allowance for loan losses and nonperforming assets.

Noninterest Income

Noninterest income was \$725,000 for the three months ended March 31, 2018 compared to \$799,000 for the comparable prior year three-month period. The three months ended March 31, 2018 include a negative \$74,000 mark to market adjustment of a CRA investment which is classified as an equity security. Such security has been owned for years for CRA purposes, but in connection with the adoption of ASU 2016-01, equity securities now require a quarterly mark to market through the income statement. When comparing the current year period to the prior year

period, a \$23,000 increase in income from the purchase of additional bank-owned life insurance in the second quarter of 2017 was offset by a \$28,000 decrease in fees and service charges.

Noninterest Expense

Noninterest expense for the three months ended March 31, 2018 was \$5.4 million compared to \$5.1 million in the comparable prior year period. The Corporation continues to appropriately control expenses as the balance sheet grows. The Corporation's largest expense is salaries and employee benefits, which increased \$265,000 in the current quarter when compared to the three months ended March 31, 2017.

Income Tax Expense

Income tax expense totaled \$647,000 for the three months ended March 31, 2018 representing an effective tax rate of 26.4%. For the three months ended March 31, 2017, income tax expense totaled \$574,000 equating to an effective tax rate of 36.7%. For the 2018 period, tax expense reflects the impact of the Tax Cuts and Jobs Act ("Tax Act") that included a permanent reduction in the Federal corporate income tax rate from 35% to 21% effective January 1, 2018.

Asset Quality

The Corporation's principal earning asset is its loan portfolio. Inherent in the lending function is the risk of deterioration in the borrowers' ability to repay loans under existing loan agreements. The Corporation manages this risk by maintaining reserves to absorb probable incurred loan losses. In determining the adequacy of the allowance for loan losses, management considers the risks inherent in its loan portfolio and changes in the nature and volume of its loan activities, along with general economic and real estate market conditions. Although management endeavors to establish a reserve sufficient to offset probable incurred losses in the portfolio, changes in economic conditions, regulatory policies and borrowers' performance could require future changes to the allowance.

Risk elements include nonaccrual loans, past due and restructured loans, potential problem loans and loan concentrations. The following table shows the composition of nonperforming assets at the end of each of the last four quarters:

	March 31, 2018	December 31, 2017	September 30, 2017	June 30, 2017
	(Dollars in thousands)			
Nonaccrual loans (1)	\$ 1,136	\$ 1,194	\$ 806	\$ 826
Loans past due 90 days or more and accruing (2)	—	—	—	320
Total nonperforming loans	1,136	1,194	806	1,146
Total nonperforming assets	\$ 1,136	\$ 1,194	\$ 806	\$ 1,146
Allowance for loan losses	\$ 8,445	\$ 8,762	\$ 8,614	\$ 8,550
Nonperforming loans to total gross loans	0.16%	0.17%	0.12%	0.17%
Nonperforming assets to total assets	0.12%	0.13%	0.09%	0.13%
Allowance for loan losses to total gross loans	1.19%	1.23%	1.24%	1.24%

(1) Generally represents loans as to which the payment of principal or interest is in arrears for a period of more than 90 days. Interest previously accrued on these loans and not yet paid is reversed and charged against income during the current period. Interest earned thereafter is only included in income to the extent that it is received in cash.

(2) Represents a loan as to which payment of principal or interest is contractually past due 90 days or more but which are currently accruing income at the contractually stated rates. A determination is made to continue accruing income on those loans which are sufficiently collateralized and on which management believes all interest and principal owed will be collected.

A loan is generally placed on nonaccrual when, based on current information and events, it is probable that the Corporation will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. The identification of nonaccrual loans reflects careful monitoring of the loan

portfolio. The Corporation is focused on resolving nonperforming loans and mitigating future losses in the portfolio. All delinquent loans continue to be reviewed by management.

At March 31, 2018, the balance of nonaccrual loans were comprised of eight loans, unchanged from December 31, 2017. Due to payments made on nonaccrual loans, during the three months ended March 31, 2018, nonaccrual loans decreased \$58,000 to \$1,136,000 compared to \$1,194,000 at December 31, 2017.

Evaluation of all nonperforming loans includes the updating of appraisals and specific evaluation of such loans to determine estimated cash flows from business and/or collateral. We have assessed each of these loans for collectability and considered, among other things, the relevant borrower's ability to repay, the value of the underlying collateral, and other market conditions to ensure the allowance for loan losses is adequate to absorb probable losses to be incurred. All of our nonperforming loans at March 31, 2018 are secured by real estate collateral. We have continued to record appropriate charge-offs and the existing underlying collateral coverage for the nonperforming loans currently supports collection of our remaining principal.

For loans not included in nonperforming loans, at March 31, 2018, the level of loans past due 30-89 days was \$821,000, comprised of four loans, compared to \$704,000 at December 31, 2017. We will continue to monitor delinquencies for early identification of new problem loans.

The Corporation maintains an allowance for loan losses at a level considered by management to be adequate to cover the probable losses to be incurred associated with its loan portfolio. The Corporation's policy with respect to the methodology for the determination of the allowance for loan losses involves a high degree of complexity and requires management to make difficult and subjective judgments.

The adequacy of the allowance for loan losses is based upon management's evaluation of the known and inherent risks in the portfolio, consideration to the size and composition of the loan portfolio, actual loan loss experience, the level of delinquencies, detailed analysis of individual loans for which full collectability may not be assured, the existence and estimated net realizable value of any underlying collateral and guarantees securing the loans, and current economic and market conditions.

In establishing the allowance for loan losses, the Corporation utilizes a two-tier approach by (1) identifying problem loans and allocating specific loss allowances on such loans and (2) establishing a general loan loss allowance on the remainder of its loan portfolio. The Corporation maintains a loan review system that allows for a periodic review of its loan portfolio and the early identification of potential problem loans. Such a system takes into consideration, among other things, delinquency status, size of loan, type of collateral and financial condition of the borrower.

Allocations of specific loan loss allowances are established for identified loans based on a review of various information including appraisals of underlying collateral. Appraisals are performed by independent licensed appraisers to determine the value of impaired, collateral-dependent loans. Appraisals are periodically updated to ascertain any further decline in value. General loan loss allowances are based upon a combination of factors including, but not limited to, actual loss experience, composition of the loan portfolio, current economic conditions and management's judgment.

When management expects that some portion or all of a loan balance will not be collected, that amount is charged-off as a loss against the allowance for loan losses. For the three months ended March 31, 2018 the Corporation recorded net recoveries of \$18,000 compared to net recoveries of \$41,000 for the three months ended March 31, 2017. Recorded charge-offs reflect partial writedowns or full charge-offs on nonaccrual loans due to the initial and ongoing evaluations of market values of the underlying real estate collateral in accordance with Accounting Standards Codification ("ASC") 310-40. Regardless of our actions of recording partial and full charge-offs on loans, we continue to aggressively pursue collection, including legal action.

While regular monthly payments continue to be made on many of the nonaccrual loans, certain charge-offs result, nevertheless, from the borrowers' inability to provide adequate documentation evidencing their ability to continue to service their debt. Therefore, consideration has been given to any underlying collateral and appropriate charge-offs recorded based, in general, on the deficiency of such collateral. In general, the charge-offs reflect partial writedowns and full charge-offs on nonaccrual loans due to the initial evaluation of market values of the underlying real estate collateral in accordance with ASC 310-40. Management believes the charge-off of these reserves provides a clearer indication of the value of nonaccrual loans.

At March 31, 2018 and December 31, 2017, the Corporation had \$6.5 million and \$6.6 million, respectively, of loans the terms of which have been modified in troubled debt restructurings. Of these loans, \$5.9 million and \$5.9 million were performing in accordance with their new terms at March 31, 2018 and December 31, 2017, respectively. The remaining troubled debt restructurings are reported as nonaccrual loans. Specific reserves of \$577,000,000 and \$582,000 have been allocated for the troubled debt restructurings at March 31, 2018 and December 31, 2017, respectively.

As of March 31, 2018, there were \$11.3 million of other loans not included in the preceding table or discussion of troubled debt restructurings where credit conditions of borrowers, including real estate tax delinquencies, caused management to have concerns about the possibility of the borrowers not complying with the present terms and conditions of repayment and which may result in disclosure of such loans as nonperforming loans at a future date. These loans have been considered by management in conjunction with the analysis of the adequacy of the allowance for loan losses.

The Corporation's lending activities are concentrated in loans secured by real estate located in northern New Jersey. Accordingly, the collectability of a substantial portion of the Corporation's loan portfolio is susceptible to changes in real estate market conditions in northern New Jersey.

Capital Adequacy

The Corporation is subject to capital adequacy guidelines promulgated by the Board of Governors of the Federal Reserve System ("FRB Board"). The Bank is subject to somewhat comparable but different capital adequacy requirements imposed by the Federal Deposit Insurance Corporation (the "FDIC"). The federal banking agencies have adopted risk-based capital guidelines for banks and bank holding companies. The risk-based capital guidelines are designed to make regulatory capital requirements more sensitive to differences in risk profiles among banks and bank holding companies, to account for off-balance sheet exposure, and to minimize disincentives for holding liquid assets. Under these guidelines, assets and off-balance sheet items are assigned to broad risk categories, each with appropriate weights. The resulting capital ratios represent capital as a percentage of total risk-weighted assets and off-balance sheet items.

Federal banking regulators have also adopted leverage capital guidelines to supplement the risk-based measures. Leverage capital to average total assets is determined by dividing Tier 1 Capital as defined under the risk-based capital guidelines by average total assets (non-risk adjusted).

Guidelines for Banks

In December 2010 and January 2011, the Basel Committee on Banking Supervision (the "Basel Committee") published the final texts of reforms on capital and liquidity, which are generally referred to as "Basel III". The Basel Committee is a committee of central banks and bank supervisors and regulators from the major industrialized countries that develops broad policy guidelines for the regulation of banks and bank holding companies. In July 2013, the FDIC and the other federal bank regulatory agencies adopted final rules (the "Basel Rules") to implement certain provisions of Basel III and the Dodd-Frank Wall Street Reform and Consumer Protection Act. The Basel Rules revise the leverage and risk-based capital requirements and the methods for calculating risk-weighted assets. The Basel Rules apply to all depository institutions, top-tier bank holding companies with total consolidated assets of \$1 billion or more and top-tier savings and loan holding companies.

Among other things, the Basel Rules (a) establish a new common equity Tier 1 Capital ("CET1") to risk-weighted assets ratio minimum of 4.5% of risk-weighted assets, (b) raise the minimum Tier 1 Capital to risk-based assets requirement ("Tier 1 Capital Ratio) from 4% to 6% of risk-weighted assets and (c) assign a higher risk weight of 150% to exposures that are more than 90 days past due or are on nonaccrual status and to certain commercial real estate facilities. The minimum ratio of Total Capital to risk-weighted assets (including certain off-balance sheet activities, such as standby letters of credit) is 8%. At least 6% of the Total Capital is required to be "Tier 1 Capital", which consists of common shareholders' equity and certain preferred stock, less goodwill and other intangible assets. The remainder, "Tier 2 Capital," may consist of (a) the allowance for loan losses of up to 1.25% of risk-weighted assets, (b) excess of qualifying preferred stock, (c) hybrid capital instruments, (d) debt, (e) mandatory convertible securities and (f) qualifying subordinated debt. "Total Capital" is the sum of Tier 1 Capital and Tier 2 Capital less reciprocal holdings of other banking organizations' capital instruments, investments in unconsolidated subsidiaries and any other deductions as determined by the federal banking regulatory agencies on a case-by-case basis or as a matter of policy after formal rule-making.

A small bank holding company that has the highest regulatory examination rating and is not contemplating significant growth or expansion must maintain a minimum level of Tier 1 Capital to average total consolidated assets leverage ratio of at least 3%. All other bank holding companies are expected to maintain a leverage ratio of at least 100 to 200 basis points above the stated minimum.

The Basel Rules also require unrealized gains and losses on certain available-for-sale securities to be included for purposes of calculating regulatory capital unless a one-time opt-out is exercised. Additional constraints are also imposed on the inclusion in regulatory capital of mortgage-servicing assets and deferred tax assets. The Basel Rules limit a banking organization's capital distributions and certain discretionary bonus payments if the banking organization does not hold a "capital conservation buffer" consisting of 2.5% of CET1 to risk-weighted assets in addition to the amount necessary to meet its minimum risk-based capital requirements. The purpose of the capital conservation buffer is to ensure that banking organizations conserve capital when it is needed most, allowing them to weather periods of economic stress. Banking institutions with a CET1 Ratio, Tier 1 Capital Ratio and Total Capital Ratio above the minimum capital ratios but below the minimum capital ratios plus the capital conservation buffer will face constraints on their ability to pay dividends, repurchase equity and pay discretionary bonuses to executive officers based on the amount of the shortfall. The Basel Rules became effective for the Bank on January 1, 2015. The capital conservation buffer requirement of 0.625% became effective on January 1, 2016, to be phased in annually through January 1, 2019, when the full capital conservation buffer requirement of 2.50% will become effective. At March 31, 2018, the Bank's capital conservation buffer requirement was 1.875%, and the actual capital conservation buffer was 5.39%.

Bank assets are given risk-weights of 0%, 20%, 50%, 100%, and 150%. In addition, certain off-balance sheet items are given similar credit conversion factors to convert them to asset equivalent amounts to which an appropriate risk-weight will apply. These computations result in the total risk-weighted assets. Most loans are assigned to the 100% risk category, except for performing first mortgage loans fully secured by residential property which carry a 50% risk-weighting. Loan exposures past due 90 days or more or on nonaccrual are assigned a risk-weighting of at least 100%. High volatility commercial real estate exposures are assigned to the 150% category. Most investment securities (including, primarily, general obligation claims of states or other political subdivisions of the United States) are assigned to the 20% category, except for municipal or state revenue bonds, which have a 50% risk-weight, and direct obligations of the U.S. Treasury or obligations backed by the full faith and credit of the U.S. government, which have a 0% risk-weight. In converting off-balance sheet items, direct credit substitutes, including general guarantees and standby letters of credit backing nonfinancial obligations, and undrawn commitments (including commercial credit lines with an initial maturity of more than one year) have a 50% risk-weighting. Short-term undrawn commitments and commercial letters of credit with an initial maturity of under one year have a 50% risk-weighting and certain short-term unconditionally cancelable commitments are not risk-weighted.

Guidelines for Small Bank Holding Companies

In April 2015, the FRB Board updated and amended its Small Bank Holding Company Policy Statement. Under the revised Small Bank Holding Company Policy Statement, Basel III capital rules and reporting requirements will not apply to small bank holding companies ("SBHC"), such as the Corporation, that have total consolidated assets of less than \$1 billion. The minimum risk-based capital requirements for a SBHC to be considered adequately capitalized are 4% for Tier 1 capital and 8% for total capital to risk-weighted assets.

The regulations for SBHCs classify risk-based capital into the categories Tier 1 Capital and Tier 2 Capital. The amount of Tier 2 Capital may not exceed the amount of Tier 1 Capital. The Corporation must maintain a minimum level of Tier 1 Capital to average total consolidated assets leverage ratio of 3%, which is the leverage ratio reserved for top-tier bank holding companies having the highest regulatory examination rating and not contemplating significant growth or expansion.

Bank holding company assets are given risk-weights of 0%, 20%, 50%, and 100%. In addition, certain off-balance sheet items are given similar credit conversion factors to convert them to asset equivalent amounts to which an appropriate risk-weight will apply. These computations result in the total risk-weighted assets.

As of March 31, 2018, the Corporation and the Bank exceeded all regulatory capital requirements as follows:

	Actual	Required for Capital Adequacy Purposes	To Be Well Capitalized Under Prompt Corrective Action Regulations
Tier 1 Leverage ratio			
Corporation	9.04%	4.00%	N/A
Bank	10.22%	4.00%	5.00%
Risk-based capital			
Common Equity Tier 1			
Corporation	N/A	N/A	N/A
Bank	12.29%	4.50%	6.50%
Tier 1			
Corporation	11.12%	4.00%	N/A
Bank	12.29%	6.00%	8.00%
Total			
Corporation	14.40%	8.00%	N/A
Bank	13.39%	8.00%	10.00%

Liquidity and Capital Resources

The Corporation's primary sources of funds are deposits, amortization and prepayments of loans and mortgage-backed securities, maturities of investment securities and funds provided from operations. While scheduled loan and mortgage-backed securities amortization and maturities of investment securities are a relatively predictable source of funds, deposit flow and prepayments on loans and mortgage-backed securities are greatly influenced by market interest rates, economic conditions and competition. The Corporation's liquidity, represented by cash and cash equivalents, is a product of its operating, investing and financing activities.

The primary source of cash from operating activities is net income. Liquidity management is both a daily and long-term function of business management. Excess liquidity is generally invested in interest-earning cash accounts or short-term investments, such as federal funds sold.

Cash and cash equivalents increased \$908,000 during the first three months of 2018. Net operating and investing activities provided \$2.1 million and \$5.9 million, respectively, while financing activities used \$7.1 million.

We anticipate that the Corporation will have sufficient funds available to meet its current contractual commitments. Should we need temporary funding, the Corporation has the ability to borrow overnight with the Federal Home Loan Bank-NY ("FHLB-NY"). The Corporation's overall borrowing capacity is contingent on available collateral to secure borrowings and the ability to purchase additional activity-based capital stock of the FHLB-NY. The Corporation may also borrow from the Discount Window of the Federal Reserve Bank of New York based on the market value of collateral pledged. In addition, the Corporation has available overnight variable repricing lines of credit with other correspondent banks totaling \$38 million on an unsecured basis.

The Corporation has historically paid a quarterly cash dividend on its common stock; however, management recognizes that the payment of future dividends could be impacted by losses or reduced earnings and the Corporation cannot assure the payment of future dividends. On April 18, 2018, the Corporation announced that its Board of Directors had declared a \$0.03 per share cash dividend payable on its common stock to shareholders of record as of May 1, 2018. The dividend is to be paid on May 15, 2018.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable to smaller reporting companies.

ITEM 4. Controls and Procedures

Evaluation of internal controls and procedures

Based on their evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, our principal executive officer and principal financial officer have concluded that our internal disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Changes in Internal Controls over Financial Reporting

Pursuant to Rule 13a-15(d) under the Exchange Act, our management, with the participation of our principal executive officer and principal financial officer, has evaluated our internal controls over financial reporting and based upon such evaluation concluded that there were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended March 31, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II -- Other Information

Item 6. Exhibits

See Exhibit Index following this report.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Section 2: EX-31.1 (EXHIBIT 31.1)

Exhibit 31.1

Certification Pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302(a) of the Sarbanes-Oxley Act of 2002

I, Paul Van Ostenbridge, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Stewardship Financial Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13(a)-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the

registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Section 3: EX-31.2 (EXHIBIT 31.2)

Exhibit 31.2

Certification Pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302(a) of the Sarbanes-Oxley Act of 2002

I, Claire M. Chadwick, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Stewardship Financial Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13(a)-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this

report based on such evaluation; and

- (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
- (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Section 4: EX-32.1 (EXHIBIT 32.1)

Exhibit 32.1

Certification Pursuant to 18 U.S.C. § 1350 as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, each of the undersigned officers of Stewardship Financial Corporation (the "Company"), certifies that:

- (1) the Quarterly Report on Form 10-Q of the Company for the quarterly period ended March 31, 2018 (the "Report") fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78o(d)); and
- (2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Dated: May 11, 2018

/s/ Paul Van Ostenbridge

Paul Van Ostenbridge

President and Chief Executive Officer
